

Specifications of the card adhesion machines of the printing companies Styria and Carinthia

Product: individual card

Formats / paper weights: (A6) 105 x 148 mm, at least 170 g/m²
matt with 1.1 volume or at least 200 g/m² glossy (A7)
74 x 105 mm, 250 g/m²

Grain of the cards with a6: narrow web, longitudinally to 148 mm

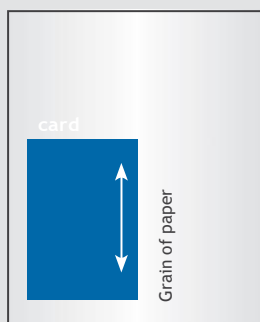

Grain of the cards with a7: grain does not matter

area of adhesion: title page of the newspaper

other: please ensure a good cut!
A poor cut could mean the cards interlocking with one another.
This results in disruptions to production.

Production guarantee: 95 per cent
9,000 copies in one block

Restrictions: If two different cards are to be stuck in one newspaper issue,
the dispatch department must be consulted before the order is placed.

example

Title page newspaper
Card format 105 x 148 mm

To guarantee the processing of the tip-on cards, we request that you comply with the following specifications. We will also be pleased to provide you with the printing of the tip-on cards which means that you no longer need to comply with these specifications. You thus receive the printing of the newspaper and the tip-on cards from one source.
